

HYPERTENSIVE VASCULAR DISEASE

Electronic Health Record Summary (7/6/2021 – 1/16/2022)

This is a summary of VHA electronic health records for the period 7/4/2021 to 1/16/2022, for John B. Smyth. related to claim number 202918301, filed on 3/1/92022 for increase in DC 7101 Hypertensive Vascular Disease. The records referenced in this summary are available in the Veteran's e-Folder.

Included in this document:

- One year of blood pressure readings
- One year of medication data

NOT included in this document:

- Data older than one year
- Private medical data
- Department of Defense data

Blood Pressure Measurement Summary

Vital Sign	MIN	MAX	AVG	Predominant
Systolic Blood Pressure	0	0	0	0 - 0
Diastolic Blood Pressure	0	0	0	0 - 0

Controlled by Continuous Medication

Does the Veteran's treatment plan include taking continuous medication for hypertension or isolated systolic hypertension?

☒ Yes

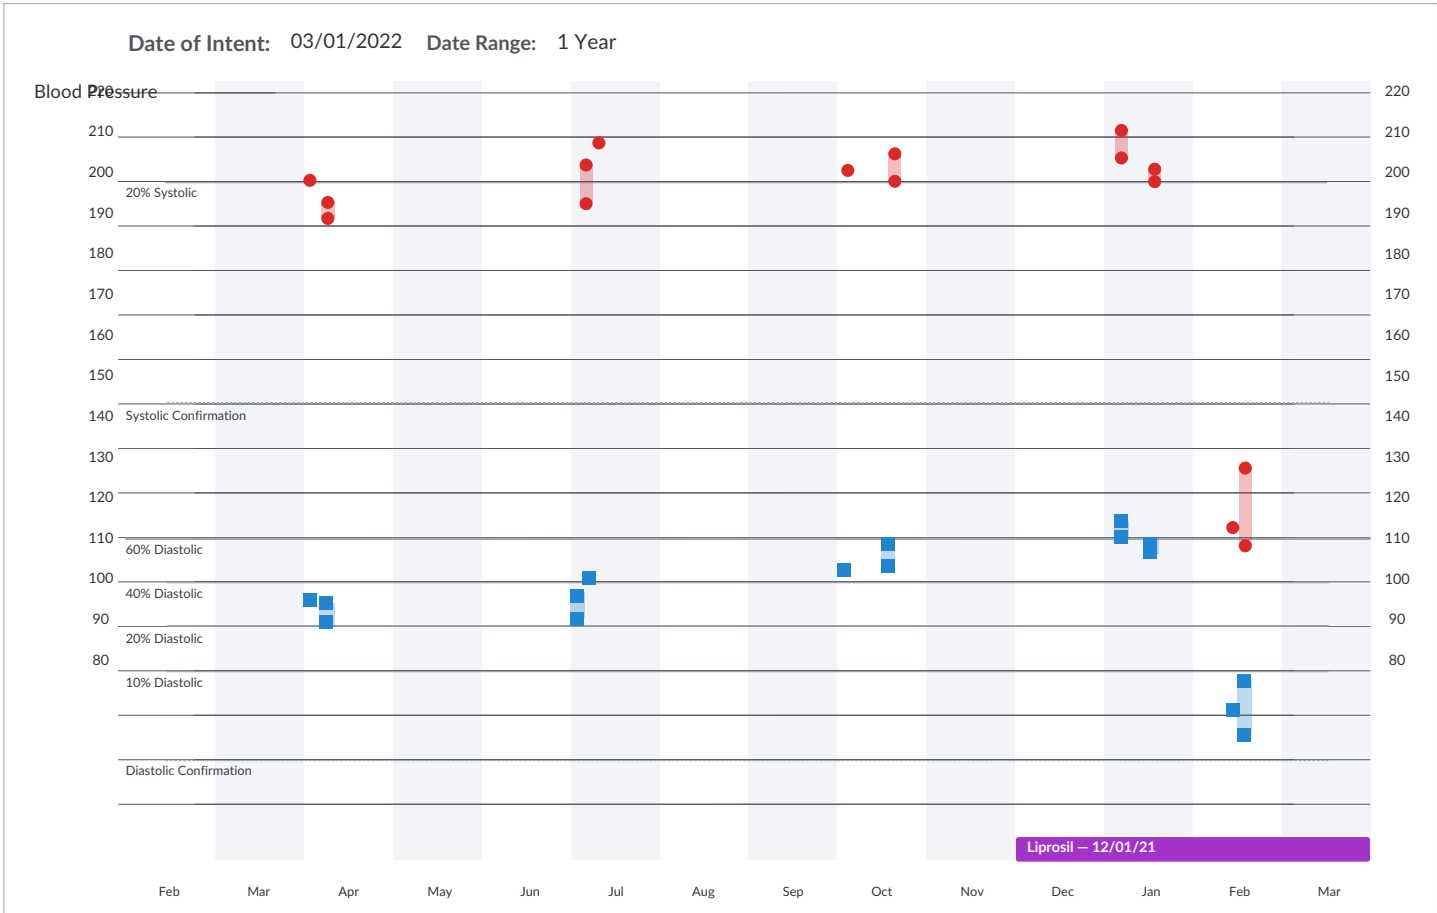

☐ No

List of medication found from evidence sources
